

ASIO ASlan-Oceania
e-TRIGGER
e-TRaining In Gerontology and GERiatrics

IAGG eTRIGGER Asia - Oceania (ASIO)

Distance Learning Educational Programme in Geriatric Medicine and Gerontology

Discover a world of knowledge and endless opportunities in geriatric medicine and gerontology with our comprehensive online course.

Join us to become a highly qualified professional in the field of aging healthcare.

Starting date: January 27, 2024

About IAGG- Federation of Geriatric Education

The mission of IAGG-World is to promote the highest levels of achievement in gerontological research and training worldwide.

<https://IAGG.site> and <https://iagg.site/iagg-fge/>

The eTRIGGER Program

In response to the COVID-19 pandemic, we have transitioned our renowned training programs to an online format: the "e-TRaining in Gerontology and GERiatrics (eTRIGGER)" programme.

<https://iagg-fge.org>

Partnership with HSeT

The Swiss Health Science eTraining non-profit Foundation (HSeT) develops e-learning programs that are tailored to the needs of specific groups of trainees as defined by the institutions themselves. This customized online training (COLT) approach integrates novel pedagogical strategies and tools to map and assess each individual student's progress at every step.

International Institute on Ageing, United Nations - Malta - INIA

Who can apply?

Physicians

Medical doctors interested in aging and care of older adults (family doctors/ general practitioners). Medical doctors on track to achieve academic tenure, professorship, or high-responsibility clinical positions.

Healthcare Professionals

The programme is also suitable for non-physician healthcare professionals, from all horizons, involved in the care of older adults.

Trainees

The program is also suitable medical/health care professional students who are interested in geriatric medicine/gerontology but who do not have access to specialized instruction at school.

Whether you are just starting your career or looking to enhance your existing practice, this program will provide valuable knowledge and skills.

eTRIGGER Course Format

12 monthly online training sessions, with participants from all different geographic time zones connected simultaneously. Each live monthly session lasts 3 hours and is recorded to enable later viewing, in case of absence.

1

Interactive Live Sessions

Join the monthly online training sessions (**12 in total**) addressing important topics in geriatric medicine and gerontology. Connect with course instructors and fellow trainees in real time.

2

Knowledge Assessment

Your knowledge will be evaluated with quizzes designed by our expert tutors, based on the key messages of each session.

3

Certificate

Earn a prestigious IAGG-World certificate of participation upon successful completion of the course quizzes.

eTRIGGER Course Benefits

Enhanced Knowledge Base

Improve your understanding of geriatric medicine and gerontology with high-quality education.

Self-directed Learning

Develop your problem-solving skills and increase self-directed learning capabilities through interactive activities.

Interdisciplinary Collaboration

Engage in real –life, culturally relevant case presentations to foster interdisciplinary teamwork and collaboration.

Leadership Development

Cultivate personal leadership and team management skills that will set you apart as a healthcare professional.
